## Bob Knight's double screen play run at Indiana and Texas Tech

A great play to run versus man-to-man because if the screening is solid, there will be an open shot every single time. The play begins with 2 shooters (2 and 3) lined up at the middle of the free throw line. 2 and 3 proceed to sprint to the right block to set a double screen for 5. 5 starts high, but runs off the screen low to the left block. 3 then pivots to screen 2's defender to free 2 to make a cut to the elbow for an open jumper.
